

Table of contents

1. ABBREVIATIONS	7
2. PRIMARY FINDINGS	8
3. LIST OF PAPERS	9
4. INTRODUCTION	10
4.1. Project purpose.....	10
4.1.1. What is the problem?	10
4.1.2. Why is it a problem?.....	11
4.1.3. Value to Danish elite sport	11
4.1.4. Value to society	12
4.1.5. Value to myself.....	12
4.2. Background.....	12
4.3. State of the art.....	15
5. PROJECT AIM	19
5.1. Research Questions	19
5.2. Hypotheses	19
6. METHODS	21
6.1. Subjects	21
6.2. Screening and familiarization.....	21
6.3. Design	22
6.4. Training.....	23
6.5. Testing and analyses.....	25
6.6. Statistics.....	30

7. RESULTS AND DISCUSSION	31
7.1. The effect of intense training on 10-km running performance.....	31
7.2. The effect of intense training on short-term running performance	33
7.3. The effect of intense training on the energetics of running.....	36
7.3.1. Maximum oxygen uptake	36
7.3.2. Running economy.....	38
7.3.3. Fraction of maximum oxygen uptake	39
7.3.4. Anaerobic capacity	40
7.4. Muscular response and adaptation to intense training	42
7.5. Summary	47
8. CONCLUSION.....	50
9. PERSPECTIVES	51
10. REFERENCE LIST	52
11. PAPERS	64
