
TABLE OF CONTENTS

| | |
|--|------------|
| PREFACE | I |
| SUMMARY | II |
| SAMMENDRAG (DANISH SUMMARY) | III |
| ABBREVIATIONS | IV |
| TABLE OF CONTENTS | V |
| INTRODUCTION | 1 |
| AIM OF THE THESIS | 3 |
| BACKGROUND | 5 |
| TYPE 2 DIABETES | 5 |
| CARDIOVASCULAR DISEASE | 5 |
| OBESITY | 6 |
| AGES | 7 |
| <i>AGE formation in food</i> | 7 |
| <i>Actions of AGEs in the body</i> | 8 |
| <i>Role of dietary AGEs in development of type 2 diabetes and cardiovascular disease</i> | 9 |
| METHODS AND RESULTS | 15 |
| ACUTE MEAL STUDY (PAPER 1) | 15 |
| <i>Aim</i> | 15 |
| <i>Methods</i> | 15 |
| <i>Main results</i> | 15 |
| INTERVENTION STUDY (PAPER 2) | 18 |
| <i>Aim</i> | 18 |
| <i>Methods</i> | 18 |
| <i>Main results</i> | 18 |
| ANIMAL STUDY (PAPER 3) | 20 |
| <i>Aim</i> | 20 |
| <i>Methods</i> | 20 |
| <i>Main results</i> | 21 |
| DISCUSSION | 23 |
| AGES AND INSULIN SENSITIVITY | 23 |
| AGES AND MARKERS OF OXIDATIVE STRESS AND INFLAMMATION | 24 |
| AGES IN APPETITE REGULATION | 25 |
| MEASURING DIETARY AND BIOLOGICAL AGES | 27 |
| LIMITATIONS AND CHALLENGES | 28 |
| CONCLUSIONS AND PERSPECTIVES | 31 |
| ARE AGES IMPORTANT FOR OUR HEALTH AS PART OF A COMPLEX DIET? | 32 |
| ACKNOWLEDGEMENTS | 33 |
| REFERENCES | 35 |
| PAPER 1-4 | 49 |
