Preface	III
List of papers	VII
Abbreviations	VIII
English summary	IX
Dansk sammendrag.....	XI
1. Introduction	1
1.1 Objectives of PhD thesis.....	2
2. Background.....	3
2.1 HIV and nutrition	3
2.2 Body composition in HIV	6
2.3 Physical activity and capacity in HIV	8
2.4 Effects of nutritional supplementation: literature review	9
2.5 Potential benefits of whey protein in nutritional supplements.....	11
2.6 Use, perception and acceptability of supplementation.....	13
3. Methodology	17
3.1 Study setting.....	17
3.2 Study population	19
3.3 Nutritional intervention	19
3.4 Study design	22
3.5 Data collection	23
3.6 Ethical considerations	29

4. Physical activity and capacity in HIV patients eligible for ART (Paper I).....	31
5. Use, perceptions and acceptability of supplementation (Paper II)	51
6. Effects of supplementation among HIV patients initiating ART (Paper III)	61
7. General discussion and perspectives	79
7.1 Main findings.....	79
7.2 Strengths and limitations of study	87
7.3 Applications for practice	89
7.4 Implications for future research.....	89
8. Conclusion	91
Related publications.....	92
References.....	93
Appendices.....	103
Appendix I. Details of baseline and follow-up data collection.....	103
Appendix II. Household food insecurity access scale (HFIAS).....	105
Appendix III. 24 hour recall of physical activities.....	106
Appendix IV. 24 hour recall of energy intake.....	107
Appendix V. Interview guide: Use, perceptions and acceptability of supplementation.....	109
