

TABLE OF CONTENTS

CHAPTER 1	1
Introduction	1
1.1 Background	1
1.2 Nutritional Metabolomics	4
1.3 The Aim of the Thesis	7
1.4 Outline of the Thesis	7
CHAPTER 2	8
Analytical platform	8
2.1 Sample Preparation	10
2.2 LC-Q-TOF-MS	11
2.2.1 Liquid Chromatography	11
2.2.2 Mass Spectrometry	13
2.2.3 Tandem Mass Spectrometry	16
2.2.4 Limitations	17
CHAPTER 3	18
Data analysis	18
3.1 Pre-processing	18
3.2 Data Treatment	21
3.2.1 Sample Normalization	21
3.2.2 Correction for Sensitivity Changes	22
3.3 Multivariate Analysis	25
3.4 Univariate Analysis	27
3.4.1 Linear Mixed Models	27
3.4.2 The False Discovery Rate	28
CHAPTER 4	30
Identification	30
4.1 Grouping of Related Ions	32
4.2 Assigning the Pseudo-Molecular Ion, Fragments and Adducts	40

4.3	Molecular Formula Determination	51
4.4	Mass Fragmentation and <i>In Silico</i> Tools	58
4.5	Retention Time Mapping	61
4.6	Retention Time Prediction	64
4.7	Semi-Automated Identification Pipeline	69
CHAPTER 5		78
Whey protein		78
<hr/>		
5.1	Whey Protein vs. Other Protein Sources	78
5.1.1	Study Design	78
5.1.2	Results	79
5.2	Whey fractions	83
5.2.1	Results	84
5.3	Do Overweight and Diabetic Volunteers Respond Differently?	93
CHAPTER 6		101
Conclusion		101
<hr/>		
CHAPTER 7		103
Perspectives		103
<hr/>		
APPENDIX I		111
Paper I		111
<hr/>		
APPENDIX II		112
Paper II		112
<hr/>		
APPENDIX III		113
Paper III		113
<hr/>
