

Table of Contents

Preface and Acknowledgements	iii
Papers	v
Summary	vi
Sammendrag (summary in Danish).....	viii
Table of Contents	x
Abbreviations.....	xii
Definition of genetic terms	xiii
1 Introduction.....	1
1.1 Motivation	1
1.2 Determinants of DHA status in early life.....	2
1.2.1 <i>Intrauterine nourishment and status at birth</i>	3
1.2.2 <i>Maternal characteristics</i>	3
1.2.3 <i>Breastfeeding</i>	4
1.2.4 <i>Fish intake</i>	5
1.2.5 <i>Gender</i>	6
1.2.6 <i>Genetic variation in FADS – an overview of the literature</i>	6
1.2.7 <i>Summary and relevance of our study</i>	19
1.3 n-3 LCPUFA and metabolic markers.....	20
1.3.1 <i>n-3 LCPUFA, glucose, insulin, growth and body composition</i>	20
1.3.2 <i>n-3 LCPUFA and lipid profile</i>	21
1.3.3 <i>n-3 LCPUFA, blood pressure and heart rate</i>	24
1.3.4 <i>Summary and relevance of our study</i>	28
1.4 n-3 LCPUFA and immune modulation.....	28
1.4.1 <i>Immune maturation</i>	28
1.4.2 <i>Immuno-modulatory effects of n-3 LCPUFA</i>	29
1.4.3 <i>Summary and relevance of our study</i>	31
2 Research strategy.....	33
2.1 Hypothetical framework.....	33
2.2 RBC content of DHA as a measure of DHA status	34
2.3 Rationale behind selection of SNPs	34
2.4 Research questions and hypotheses	35
3 Overview of the studies.....	36
3.1 SKOT.....	36
3.2 EFION.....	36

4 Overview of the papers	38
5 Paper 1	39
5.1 Introduction.....	41
5.2 Subjects and methods.....	42
5.3 Results	43
5.4 Discussion	45
5.5 Online Supplemental Material	49
6 Paper 2.....	55
6.1 Introduction.....	58
6.2 Subjects and methods.....	59
6.3 Results	62
6.4 Discussion	64
6.5 Online Supplemental Material	75
7 Paper 3.....	77
7.1 Introduction.....	80
7.2 Subjects and methods.....	81
7.3 Results	85
7.4 Discussion	87
7.5 Online Supplemental Material	95
8 General discussion.....	103
8.1 FADS genotype and other potential determinants associated with infant RBC DHA status (Paper 1)	103
8.2 Interaction between n-3 LCPUFA and functional polymorphisms in relevant genes (Paper 2 and 3)	111
8.3 Strengths and limitations	114
9 Conclusions and Perspectives	117
10 References	119
