
PAPERS

- Paper 1** *Rasmus Baadsgaard, Mærkedahl, Marietta Boje Bohr, Henrik Vestergaard, Oluf Pedersen, Lotte Lauritzen, and Hanne Frøkiær. Evaluation of Pentraxin 3 as a marker for metabolic syndrome-associated low-grade systemic inflammation.* Submitted to J Immunol Methods
- Paper 2** *Rasmus Baadsgaard Mærkedahl, Christian Lundtoft, Marie Stenbæk, Camilla Betak Nielsen, Özge Er, Sabine Ibrügger, Oluf Pedersen, Henrik Vestergaard, Stine Broeng Metzdorff, Hanne Frøkiær, and Lotte Lauritzen. Ex vivo cytokine production does not reflect metabolic syndrome-associated low-grade systemic inflammation.* (2015). Submitted to Clin Exp Immunol
- Paper 3** *Rasmus Baadsgaard Mærkedahl, Sabine Ibrügger, Mette Kristensen, Stine Broeng Metzdorff, Hanne Frøkiær & Lotte Lauritzen. Dietary intervention with WG reduces low-grade systemic inflammation in overweight Danish adults with features of the metabolic syndrome.* (2015). Manuscript draft, which has only been reviewed by RBM, LL, and HF. For this reason, co-author statements have not been collected from the remaining authors.
- Paper 4** *Rasmus Baadsgaard, Mærkedahl, Hanne Frøkiær, Lotte Lauritzen, Stine Broeng (Appendix) Metzdorff. Evaluation of a low-cost procedure for sampling, long-term storage, and extraction of RNA from blood for qPCR analyses.* (2015). Clin Chem Lab Med. **8**; 1181-8
