
TABLE OF CONTENTS

PREFACE.....	I
ACKNOWLEDGEMENTS	III
SUMMARY	V
SAMMENDRAG (DANISH SUMMARY).....	VII
ABBREVIATIONS.....	IX
TABLE OF CONTENTS	XI
INTRODUCTION.....	1
BACKGROUND.....	3
Surgical treatment of obesity.....	3
Mechanisms of weight loss following RYGB and SG surgery	4
The effect of RYGB and SG surgery on food preferences	5
Potential mechanisms driving changes in food preferences	9
Potential mechanism #1: The sensory domain	12
Potential mechanism #2: The reward domain	13
Potential mechanism #3: The physiological domain.....	16
Hormones as potential mediators	17
Clinical relevance of potential changes in food preferences	18
AIMS AND HYPOTHESES.....	19
METHODOLOGY.....	21
The GO Bypass Study	21
End points included in this thesis	23
RESULTS.....	27
Characteristics	27
The effect of RYGB and SG surgery on food preferences (paper I + paper II)	28
Potential mechanism #1: The sensory domain (paper III).....	29
Potential mechanism #2: The reward domain (paper III + paper IV).....	30
Potential mechanism #3: The physiological domain (paper I + paper II)	32
Hormones as potential mediators	33
Clinical relevance of potential changes in food preferences (paper II)	35
DISCUSSION.....	37
The effect of RYGB and SG surgery on food preferences (paper I + paper II)	37

Potential mechanism #1: The sensory domain (paper III).....	40
Potential mechanism #2: The reward domain (paper III + paper IV).....	42
Potential mechanism #3: The physiological domain (paper I + paper II)	45
Hormones as mediators	46
Clinical relevance of potential changes in food preferences (paper II)	46
Overall strengths and limitations.....	47
CONCLUSION	49
PERSPECTIVES.....	51
REFERENCES	53
APPENDIX	71
PAPER I-IV	73
