

Short presentation

Mahsa Jalili is a researcher in nutrition sciences at the University of Copenhagen. With a background in molecular biology and clinical nutrition, Mahsa has made contributions to the fields of clinical nutrition, immunology, and biochemistry. Her work reflects her diverse expertise to advancing our understanding of various biological processes in nutrition. Through her research and teaching, Mahsa has developed a continuous interest in areas such as nutrition, pathophysiology, immunology, and molecular biology.

My short presentation

Mahsa Jalili is a dedicated researcher in nutrition sciences with the University of Copenhagen. With a strong background in molecular biology and clinical investigation techniques, Mahsa has made significant contributions to the fields of clinical nutrition, immunology, and nutritional biochemistry. Her work spans a range of disciplines, reflecting her diverse expertise and commitment to advancing our understanding of various biological processes in nutrition. Through her extensive research endeavors, Mahsa has developed a profound interest in areas such as nutrition, pathophysiology, immunology, and metabolism.

Mahsa Jalili
